

RESEARCH

ACPM issued
two \$50,000
research grants.

Principal Investigator: Konstantinos Votanopoulos, MD, PhD
Institution: Wake Forest University, Winston-Salem, NC, USA
Project Title: Immune System Enhanced Appendiceal Cancer Organoids for Ex Vivo Determination of Immunotherapy Efficacy in Appendiceal Cancer
This grant is issued in memory of Barrett Peterson, Roger Graham, and Aly Kendall

Principal Investigator: Shyh-Dar Li, PhD
Institution: University of British Columbia, Vancouver, BC Canada
Project Title: Modulation of Tumor Immune Microenvironment for Enhanced Therapy of Pseudomyxoma Peritonei
This grant is issued in memory of Joyce Davitz, Paula Druse, Neil Elkins, Robert FitzGerald, Marcia Fosburg, William Howard, Francine Lane, Doug Lawler, Christina Nuzik, Geoff Pierce, Stanley Pollack, Ronnie Rabon, Laura Rinier, E. Annette Sauer, and Yvonne Stevens

SYMPOSIUMS

ACPM co-hosted and sponsored **two successful educational symposiums** for patients and practitioners.

October 2, 2018

October 11, 2018

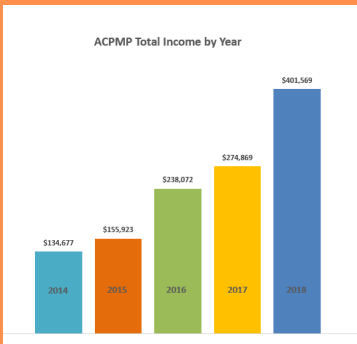

SCHOLARSHIPS

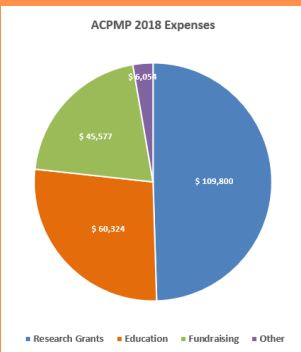

ACPM provided **25 scholarships** to medical professionals from 12 different countries to attend the **Peritoneal Surface Oncology Group International (PSOGI) Conference** in Paris, France.

FINANCIALS

In 2018, ACPMP achieved **\$401,569** in income with **\$221,755** in expenses; 77% of expenses went to research and education.

MISSION:

Fund research to improve treatment and find a cure for appendix cancer and pseudomyxoma peritonei, and educate patients and physicians about these diseases.
